Dear Chairman Pai,

We write to support the Comments of Brattleboro Community Television, Inc. (File ID 1113560010350) and to disapprove of the proposals and tentative conclusions set forth in the FCC’s September 25 Further Notice of Proposed Rule Making in *Implementation of Section 621(a)(1) of the Cable Communications Policy Act of 1984 as Amended by the Cable Television Consumer Protection and Competition Act of 1992*, MB Docket 05-311.

While my town of Brattleboro, Vermont, has internet coverage, much of the surrounding rural area does not. Brattleboro Community Television (BCTV) provides needed access to local news, selectboard meetings, and cultural information. As a writer and publisher, anything that enhances our interest in the arts benefits my business, other writers and publishers, and local musicians and artists, not only by promoting our work but also by nurturing an audience that cares about the arts

This local presence enables the residents of our town of Brattleboro to create and watch uniquely local programming about their community and local events and issues of interest to them. And that was the intent of the PEG provisions of the 1984 Cable Act – to enhance local voices, serve local community needs and interests, and strengthen our local democracy. By defining “franchise fee” in an overly broad fashion to include “in-kind” support, the FCC’s proposals will shift the fair balance between cable franchising authorities and cable operators – something that was never the intent of the Act – and could ultimately result in such reduction in franchise fees as to defund PEG Access in our state.

We appreciate your consideration and hope you will protect PEG Access in our community and others by choosing not to adopt many of the proposals in the Further Notice.

Sincerely,

Barbara Morrison
